

Pioneers in manufacturing wide-ranging multipurpose plastic containers and **Premium** combs.

"An ISO 9001 certified company"

# ShriPlast

## COMPANY PROFILE

We would like to introduce ourselves as a leading manufacturer of Plastic injection moulded

Articles in South India for the last 4 decades since 1960 which started with the manufacture

Of brass press buttons. We then progressed to plastic Injection moulding to produce Plastic wares such as products like Soapbox Pencil boxes for school children, buckets Baskets and funnels since 1962.

Seeing the progression and changes in the industry wherein plastic started replacing metals.

This led to the Incorporation of Shriplast in 2005 to cater to the growing and packaging requirements of the market.

One of the many products manufactured are combs in various sizes and shapes of superior quality and design being marketed by the brand name "**PREMIUM**". Our products are not only strong and durable but also beautiful and elegant. Our major clients range from corporate to FMCG who offer our combs in promotional offers as well as gift packs. Apart from combs we are also manufacturing Multi shaped containers in different sizes, colours, designs and capacities both in the transparent and opaque variants. We also started export of combs to various countries.

"Perfection and Perseverance" is our motto. We use 100 % virgin plastic which is 100 % food safe

And free from health and environmental risk.

We are ISO certified company by TUV.

Our factory is situated at Sldco Industrial estate, Ambattur which is one of the biggest industrial estate in south east Asia. All necessary infrastructure facilities such as land, water Power and skilled technicians are available in an abundant manner.

We have machines from 80 to 180 tons. Our products are processed using Virgin materials PP,

HD, GPPS, LD, LLD, Polycarbonate and SAN.

The above are supported by backup generators for uninterrupted production to maintain constant and regular supply.

We use absolutely state-of-the-art technology, combined with the most stringent quality checks which ensure products of the highest quality and ensuring timely delivery.

After carving a niche for ourselves in India we have started looking for beyond the National boundaries for challenges in the overseas markets and our exporting to various countries.
